

research groups department of physics - the department operates on a devolved research basis based upon a research group structure each research group has its own culture and strategy matched to the cutting edge of contemporary science in that area, **departmental administrative staff department of physics** - name job title phone number email vacant graduate education manager 44 0 1223 336031 admissions phy cam ac uk imen litim graduate education assistant, **thermo scientific xps what is xps** - what is x ray photoelectron spectroscopy xps as the demand for high performance materials increases so does the importance of surface engineering, **heat transfer modeling software for analyzing thermal effects** - the heat transfer module contains features for modeling conjugate heat transfer and nonisothermal flow effects these capabilities can be used to model heat exchangers electronics cooling and energy savings to name a few examples, **bnl center for functional nanomaterials cfn** - science for discovery at the nanoscale the cfn has hosted a broad range of research investigations in nanoscience since its inception in diverse research areas such as efficient catalysts fuel cell chemistries and architectures and photovoltaic solar cell components, **atomic force microscopy for surface topography eag** - eag laboratories uses atomic force microscopy to assess surface topography of any material including quantitative measurements and qualitative mapping, **progress challenges and opportunities in two dimensional** - graphene's success has shown that it is possible to create stable single and few atom thick layers of van der waals materials and also that these materials can exhibit fascinating and technologically useful properties here we review the state of the art of 2d materials beyond graphene initially we will outline the different
